

CANONICAL CORRELATION WITH SPSS MACRO -- CANCORR

The canonical scores have been written to the active file.
Also, a file containing an SPSS Scoring program has been written
To use this file GET a system file with the SAME variables
Which were used in the present analysis. Then use an INCLUDE command
to run the scoring program.
For example :

```
GET FILE anotherfilename  
INCLUDE FILE "CC__.INC".  
EXECUTE.
```
